For their contribution to NVWS Awards Program

Juror's Message: I Thank the Nevada Watercolor Society for inviting me to jury their 2024 NVWS Fall Show. It is always a privilege and an honor to be asked to pick from so many examples of watercolor. When I am jurying for any show I look for those that capture my attention and make me want to keep viewing it over and over. There are the ones that have that something extra compelling one to be visually entertained and intrigued. Perhaps it was its creative design, strong color combinations, or maybe it's visual content. Whatever it is it worked! Judging for awards, to me, is an awesome task and at the same time, nerve wracking. There are always so many who deserve an award and never enough to hand out. Being primarily a figurative artist, I find myself drawn to paintings that exhibit something that is different and unique from what I do. It could be an abstract, street scene, fantasy or any number of looks. But when I see a painting and say to myself, "Wow, I wish I had done that!" These are the award winners in my eyes. To those selected this year, congratulation! To those of you not selected, please keep working at your art and enter again next year. Hard work and the inspiration to be a better artist will prove fruitful. Everyone who entered this year's show should be honored and applauded for their efforts.
